RstoxData

November 5, 2019

RstoxData   *R libraries to parse and write fisheries biotic and acoustic data format*

Description

Tools to fetch and manipulate various data formats for fisheries (mainly geared towards biotic and acoustic data).

Details

The RstoxData package contains functions for reading, filtering and writing biotic, acoustic and landing data as XML files. Filtering can be done by R syntax such as longitude > 10, or by pre defined functions such as inside().
